NBC Securities, Inc.
Birmingham, Alabama

We have audited the accompanying statement of financial condition of NBC Securities, Inc. (the Company) as of December 31, 2012, and the related notes to the statement of financial condition.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statement.

Board of Directors and Stockholder
NBC Securities, Inc.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of the statement of financial condition in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial. NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

Recently Adopted and Issued Accounting Pronouncements

In October 2012, the Financial Accounting Standards Board (FASB) issued ASU-2012-04, *Technical Corrections and Improvements*, to provide amendments that affect a wide variety of topics in the codification. These amendments are presented in two sections - Technical Corrections and Improvements (Section A) and Conforming Amendments Related to Fair Value Measurements (Section B). The amendments in this update represent changes to clarify the codification, correct unintended application of guidance or make minor improvements to the codification that are not expected to have a significant effect on current accounting practice or create a significant administrative cost to most entities. The effective date of this ASU will be December 31, 2013, for the Company. The adoption of this ASU it is not expected to have a material impact on the statement of financial condition of the Company.

Subsequent Events

During this period, there were no material recognizable subsequent events that required recording or disclosures in the December 31, 2012, statement of financial condition.

NOTE D - PREMISES AND EQUIPMENT, NET

A summary of premises and equipment at December 31, 2012, is as follows:

Computer equipment	\$ 255,770
Office equipment	68,218
Leasehold improvements	<u>43,995</u>
	367,983
Accumulated depreciation	<u>(179,494)</u>
	<u><u>\$ 188,489</u></u>

NOTE E - EMPLOYEE BENEFIT PLANS

Effective July 7, 2010, the Company sponsored a qualified defined contribution plan under Section 401(k) of the Internal Revenue Code (the Code). The terms of the plan provide that employee participants can contribute up to 50 percent of their base salary to the plan on a pretax basis, and the Company matches up to 100 percent of the first six percent of each participant's contribution. Full-time employees who are at least 18 years of age become eligible to participate beginning on the first day of employment. The Company match begins the first day of the month after completion of one year and at least 1,000 hours of service. Vesting in employee contributions and earnings on those contributions are 100 percent and are immediate. Vesting of Company matches increases 25 percent per year from zero percent after one year of service to 100 percent after five years of service.

NOTE F - RELATED PARTIES

The Company has outstanding loans to employees totaling \$692,165 as of December 31, 2012, included in other assets in the statement of financial condition. The loans will be forgiven on an annual basis over the lives of the loans dependent on the employees maintaining employment.

NOTE G - NET CAPITAL REQUIREMENTS

The Company is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. The Company has elected to use the alternative method, as permitted and defined by Rule 15c3-1, which requires the Company to maintain minimum net capital, as defined, equal to the greater of \$250,000 or two percent of aggregate debit balances arising from customer transactions. The net capital rule also provides that equity capital may not be withdrawn or cash dividends paid if resulting net capital would be less than five percent of aggregate customer debit balances. At December 31, 2012, the Company had net capital of \$1,202,988, which was \$952,988 in excess of required net capital. The Company did

NBC SECURITIES, INC.
NOTES TO STATEMENT OF FINANCIAL CONDITION
DECEMBER 31, 2012

not have any aggregate debit balances at December 31, 2012; therefore, the percentage of net capital to aggregate debit items was not meaningful.

NOTE H - INCOME TAXES

The balance sheet (statement of financial condition) method is used to determine deferred taxes. Under this method, the net deferred tax asset or liability is based on the tax consequences of differences between the book and tax bases of assets and liabilities, which are determined by applying enacted statutory rates applicable to future years to these temporary differences. Deferred taxes can be affected by changes in tax rates applicable to future years, either as a result of statutory changes or business changes that may change the jurisdictions in which taxes are paid. Additionally, deferred tax assets are subject to a "more likely than not" test. If the "more likely than not" test is not met, a valuation allowance must be established against the deferred tax asset. The Company has established a valuation allowance for the amount of deferred tax assets that it expects will not be realized less the amount of reversing tax liabilities.

The components of deferred income taxes included in other assets in the accompanying statement of financial condition at December 31, 2012, are as follows:

Deferred tax liabilities:	
Premises and equipment related to depreciation and amortization	\$ (17,419)
Deferred tax assets:	
Net operating loss carryforward	670,611
Loan reserve	95,590
Contributions	9,330
Valuation allowance	<u>(758,112)</u>
Total deferred tax assets net of valuation allowance	<u>-</u>
Net deferred tax asset	<u>\$ -</u>

The Company has determined that it does not have any tax positions at December 31, 2012, that it would be unable to substantiate. The Company has filed its tax returns through December 31, 2011. The tax returns for the years ended December 31, 2010, and thereafter are subject to audit by the taxing authorities.

NOTE I - COMMITMENTS AND CONTINGENCIES

The Company, in its capacity as a broker-dealer, is subject to litigation and various claims, as well as examination by regulatory agencies. On the basis of information furnished by legal counsel and others, management believes no matters are pending that will have a material adverse effect on statement of financial condition of the Company.

NOTE G - NET CAPITAL REQUIREMENTS

The Company is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. The Company has elected to use the alternative method, as permitted and defined by Rule 15c3-1, which requires the Company to maintain minimum net capital, as defined, equal to the greater of \$250,000 or two percent of aggregate debit balances arising from customer transactions. The net capital rule also provides that equity capital may not be withdrawn or cash dividends paid if resulting net capital would be less than five percent of aggregate customer debit balances. At December 31, 2012, the Company had net capital of \$1,202,988, which was \$952,988 in excess of required net capital. The Company did not have any aggregate debit balances at December 31, 2012; therefore, the percentage of net capital to aggregate debit items was not meaningful.

NOTE H - INCOME TAXES - Continued

The Company has determined that it does not have any tax positions at December 31, 2012, that it would be unable to substantiate. The Company has filed its tax returns through December 31, 2011. The tax returns for the years ended December 31, 2010, and thereafter are subject to audit by the taxing authorities.

The amounts for current federal and state taxes and deferred federal and state taxes are \$0 for the year ended December 31, 2012.

The balance sheet (statement of financial condition) method is used to determine deferred taxes. Under this method, the net deferred tax asset or liability is based on the tax consequences of differences between the book and tax bases of assets and liabilities, which are determined by applying enacted statutory rates applicable to future years to these temporary differences. Deferred taxes can be affected by changes in tax rates applicable to future years, either as a result of statutory changes or business changes that may change the jurisdictions in which taxes are paid. Additionally, deferred tax assets are subject to a "more likely than not" test. If the "more likely than not" test is not met, a valuation allowance must be established against the deferred tax asset. The Company has established a valuation allowance for the amount of deferred tax assets that it expects will not be realized less the amount of reversing tax liabilities.

The components of deferred income taxes included in other assets in the accompanying statement of financial condition at December 31, 2012, are as follows:

Deferred tax liabilities:	
Premises and equipment related to depreciation and amortization	\$ (17,419)
Deferred tax assets:

Loan reserve	95,590
Contributions	9,330
Valuation allowance	<u>(758,112)</u>
Total deferred tax assets net of valuation allowance	<u>-</u>
Net deferred tax asset	<u><u>\$ -</u></u>

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
On Internal Control Required by SEC Rule 17a-5(g)(1) for a Broker-Dealer
Claiming an Exemption from SEC Rule 15c3-3**

February 20, 2013

Board of Directors and Stockholder
NBC Securities, Inc.
Birmingham, Alabama

In planning and performing our audit of the financial statements of NBC Securities, Inc. (the Company) as of and for the year ended December 31, 2012, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company, including consideration of control activities for safeguarding securities. This study included tests of compliance with such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3a(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications, and comparisons and the recordation of differences required by Rule 17a-13.
2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Company's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

Board of Directors and Stockholder
NBC Securities, Inc.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2012, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, Financial Industry Regulatory Authority and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Sincerely,

Warren Averett, LLC

5. Noted that no overpayment existed based on the calculations described above and noted that Form SIPC-7 did not indicate any overpayment.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.
